EDUCATION

Dr. A.P.J. Abdul Kalam Technical University (AKTU) — **Lucknow, India**
Master of Computer Applications (MCA) — *2025 – 2026*

Chaudhary Charan Singh University (CCSU) — **Meerut, India**
Bachelor of Computer Applications (BCA) — *2021 – 2024*

TECHNICAL SKILLS

Programming Languages: C++, JavaScript, HTML5, CSS

Libraries / Frameworks: ReactJS, NodeJS, ExpressJS, MongoDB, Tailwind CSS

Tools / Platforms: Git, GitHub, Docker, Postman, GitHub Actions

Concepts: REST APIs, JWT Authentication, CI/CD, CRUD Operations, Responsive Design, API Integration, Role-Based Access Control

WORK EXPERIENCE

Full Stack Developer

Jul 2025 – Present — *Global Digital FX, India*

* Developing full-stack web applications using ReactJS for frontend, NodeJS and ExpressJS for backend, and MongoDB as the database.
* Building responsive and user-friendly UI components to enhance application usability and performance.
* Designing and integrating REST APIs for seamless data communication between client and server.
* Collaborating in an Agile development environment and using Git & GitHub for version control and deployment.

PROJECTS

- **Doctor Appointment Booking System** (MERN Stack), Developed a full-stack web application enabling users to browse doctors, check availability, and book appointments seamlessly. Built responsive frontend using ReactJS and Tailwind CSS, and implemented backend APIs for appointment management, authentication, and data handling. Designed an admin panel to manage doctors, appointments, and user data efficiently. Focused on clean UI/UX, secure data flow, and smooth user experience. GitHub User Panel Admin Panel
- **SIDTelfers – E-Commerce Platform** (MERN Stack), Worked on a production-level E-Commerce platform using ReactJS, Node.js, Express.js, and MongoDB. Developed responsive frontend interfaces with ReactJS and Tailwind CSS for product browsing, cart management, checkout, and order workflows. Built and optimized admin dashboard modules for managing products, users, orders, and inventory operations. Integrated REST APIs and contributed to backend API development for authentication, product management, and order handling. Collaborated with the development team to improve application performance, responsive design, and overall user experience across devices. GitHub Live Demo Admin Panel
- **VidyaUdbhav – Education College Admission Counselling Platform** (ReactJS, Node.js, Express.js, MongoDB), Developed a full-stack education consultancy platform that helps students explore colleges, courses, and admission opportunities. Implemented student enquiry and counselling workflows, enabling users to submit their requirements and connect with counsellors for personalized college admission guidance. Built a comprehensive admin dashboard to manage students, enquiries, colleges, courses, counselling requests, and platform content. Developed RESTful APIs using Node.js and Express.js with MongoDB for data management, authentication, and backend operations. Focused on responsive UI, secure API integration, performance, and seamless user experience. GitHub Live Demo Admin Panel

ACHIEVEMENTS

- Strong interest in Data Structures and Algorithms, with consistent practice on platforms like **LeetCode**. Enjoy solving complex problems and optimizing solutions, which has improved logical thinking, problem-solving ability, and coding efficiency.
